TO: Whom it may concern

RE: Letter of Recommendation for Laura Geis,

I am writing to recommend that you consider Laura Geis as a candidate for a teaching position in your building. I have worked with Laura during the last year at a 21st century school. I mentored Laura as she completed her teaching internship at Discovery Elementary School.

I have found Laura to be very diligent in completing her lessons plans and she was thoroughly prepared for each class. She willingly participated in grade level collaboration and brought forth good ideas as we discussed the characteristics of a good teacher. She apply what she learned to her experiences throughout her internship. During her Internship, Laura developed and integrated units in science and social studies, and easily prepared language arts and math lessons. Laura instructed using center rotations and incorporated technology into lessons.

I would recommend that Laura Geis be given an opportunity to interview for any teaching position that you may have available. Her warm, outgoing personality, creativity, dedication to the profession and collaboration skills would be well received by teachers, students, and parents. The skills she has gained in her Internship would make her a great candidate.

Please don't hesitate to call or contact me with any further questions.
