

# DISCOVERY ELEMENTARY

Mike Dudley, Principal

April 17, 2014

To Whom It May Concern,

It is my honor to write a recommendation for Laura Geis. I had the opportunity to work with Laura when she was a part of our second grade team at Discovery Elementary. Laura completed her intern/student teaching experience in a second grade class during the 2013-2014 school year. I find Laura highly qualified as a beginning teacher and recommend that she be seriously considered for a position as a classroom teacher.

When she began her experience as a student intern, it was immediately evident that Laura had a love for the profession and a sincere interest in and concern for the students. She was able to communicate effectively and she displayed many fine personal and professional qualities. She carried out her responsibilities in a responsible and dependable manner.

During her time in a 21<sup>st</sup> century classroom, Laura designed and created lessons with the use of technology that were engaging and asked appropriate questions. She willingly shared with her colleagues and was receptive for feedback.

In my opinion Laura Geis is an excellent candidate for your school. She has tremendous initiative, a desire to continue to learn, and a reflective outlook. Laura would be an asset to any school staff. Feel free to contact me for further information.

Kristina Drlik

A handwritten signature in cursive script that reads "Kristina Drlik". The signature is written in black ink and is positioned below the printed name.
